

Frequently Asked Questions

About the Juno Lighting Group Migration to the Acuity Brands Ordering System and Policies

What's changing?

On 5/1/17, all catalog numbers for Aculux®, Indy™ and Juno® brand products will change, and these products will be integrated into the Acuity Brands order management system to enable a seamless ordering experience. In addition, payment terms and other terms and conditions are changing to the standard Acuity Brands Terms and Conditions of Sale.

How should I prepare our system?

Update the Juno Lighting Group catalog numbers in your system to reflect the new catalog numbers for the Aculux, Indy and Juno brand products. Note that UPC numbers will not change. Please use the crossover application in the Acuity Distributor Center (registration information below) to help cross old catalog numbers to the new catalog numbers. For guidance on how to use the application, [watch this video](#) or view this [quick reference guide](#).

How will the changes impact EDI and IDW?

Our EDI team has been communicating directly with customer-specific EDI technical contacts about the EDI integration and ID changes. Questions about EDI can be submitted to EDISupport@AcuityBrands.com.

IDW items for Aculux, Indy and Juno brand products will be updated to reference new catalog numbers under the Juno Lighting Group ID.

What about the DanaLite™, AccuLite® and NaviLite® brands and other branding changes?

DanaLite brand products will be rebranded as Juno brand products. Please update the catalog numbers in your system using the tools referenced above. Each AccuLite and NaviLite brand product will be rebranded or discontinued as a comparable product from Acuity Brands already exists. If a product is being discontinued, we will continue to sell this product while supplies last. Please contact your Acuity Brands sales team or local agency to help with conversion to the recommended replacement items.

How will I be able to view inventory and orders?

All inventory and orders placed starting 5/1/17 will be visible on Acuity Distributor Center (ADC). Also, for lines on an order that have not shipped by 5/1/17, a new order number will be assigned and order status for those lines will appear in ADC. Note that the old catalog numbers will be converted to new catalog numbers.

How do I get access to Acuity Distributor Center (ADC)?

To register, [click here](#). Contact your local Acuity Brands agency for questions or for your six-digit customer number.

Will I still be able to see my previous orders in Juno Lighting Group's e-commerce portal (exploreJLG)?

Yes. You will be able to see order status for lines on an order [that shipped](#) prior to 5/1/17. However, the portal will be decommissioned in 90 days.

How does this affect my Juno Lighting Group payment terms?

Payment Terms will be adjusted to meet Acuity Brands' standard payment terms of 1% 10th prox, net 25th prox from current Juno Lighting Group payment terms of 1.5%/30, net 31. Please be sure to adjust payment terms in your system, as applicable (please forward to your Accounts Payable departments).

Are any other payment terms being updated?

Yes, in order to be more consistent, terms are also changing from Net 30 to 1% 10th prox, net 25th prox for the following product brands: Hydrel®, Peerless®, Mark Architectural Lighting™, Winona® Lighting, Healthcare Lighting®, Antique Street Lamps™ and ROAM®. Payment terms are not changing for Holophane®, SunOptics® and eldoLED® brand products.

Will packaging change?

Packaging will be labeled with the new and old catalog numbers. The old catalog number will appear in parentheses beneath the new number.

Will the invoices and packing slips change?

Invoices and packing slips will be labeled with both the new and old catalog numbers. In addition, the Juno Lighting Group logo will be replaced with the Acuity Brands logo.

Do we change where we remit payment?

An updated remittance address will be noted on the invoice:

- **Eastern US Address:** Acuity Brands Lighting, Inc.,
PO BOX 100863, Atlanta Ga, 30384
- **Western US Address:** Acuity Brands Lighting, Inc., File
057450, Los Angeles CA, 90074- 7450

Please contact your Acuity Brands sales representative or local agency for assistance during this transition.
