### PRODUCT DESCRIPTION

Navilite NXECRB and NXEWRB Series Recessed Mount Edge-Lit LED Exit Signs offer an elegant and unobtrusive alternative for applications where minimum disruption of the building decor is desired. With a premium aluminum trim, rounded corners, and soft finishes the Navilite Recessed Edge-Lit Exit Signs portray unparalleled quality and attention to detail making them an ideal choice for upscale offices, healthcare facilities, and high-rises. The NXE-CRB and NXEWRB also offer all the benefits of LED lighting, like energy efficiency, minimum maintenance, and high reliability. Plug in connectors and Navilite pioneered field applied directional chevrons round the package for easy specification and installation. A NiCad battery provides emergency power for safe evacuation during a power outage.

### PRODUCT SPECIFICATIONS

**Construction** Crystal clear acrylic face panel • Mirrored divider provided on double face signs to simulate clear aesthetic

- Reflective tape follows the contour of the acrylic face, increasing the visibility of the letters
- 6" letters with  $\frac{3}{4}$ " stroke width and additional edge engraving for increased visibility
- Field-applied chevron directional indicators with pre-applied, easily removable installation template
- Red or green letters
- Steel recessed housing with plug in connectors for quick and easy trim installation
- Includes telescopic bar hangers with built-in graduated scale that extend from 14" to 24" and can be installed in any of the four sides of the housing
- The bar hangers are suitable for joist installation and come with a T-bar slot for grid ceiling installation
- Bar hanger ends are designed with a nail-in tab for initial positioning
- A double head nail is included for permanent attachment to joists; the double head makes it easy to remove the nail in case repositioning is needed
- Commercial bar hanger brackets are also included for applications that require the use of commercial bar hangers
- Vertically adjustable up to 1" to accommodate different ceiling thickness
- Available in white and soft brushed aluminum trim plate finish.

**Electrical** Dual voltage 120/277VAC • Isolating transformer is mounted on the recessed housing • A quick connector makes attaching the trim to the housing fast and easy • Recessed housing comes with seven  $\frac{3}{4}$ " knock-outs for AC input in different locations

- An AC ON light shows when the unit is powered up.

**Lamps** Long life, energy saving, ultra-bright LED lamps • LEDs are connected in parallel configuration such that the unlikely failure of one LED will not affect the rest of the lamps • Red or green LEDs.

**Battery** Rechargeable Nickel Cadmium, maintenance-free

- Battery will operate the sign for a minimum of 90 minutes in the event of a power outage.

**Code Compliance** UL Listed • NFPA 101 Life Safety Code Compliant • NEC and OSHA compliant • Energy Star qualified.

**Warranty** 5-year warranty (see reverse for battery warranty).

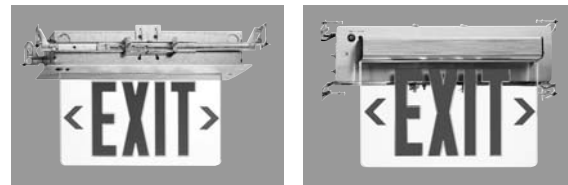

Product specifications subject to change without notice.

### INSTALLATION

**Mounting** Ceiling recessed (NXECRB) or wall recessed (NXEWRB) mounted • Includes telescoping bar hangers for joist or T-bar ceiling applications and commercial bar hanger bracket

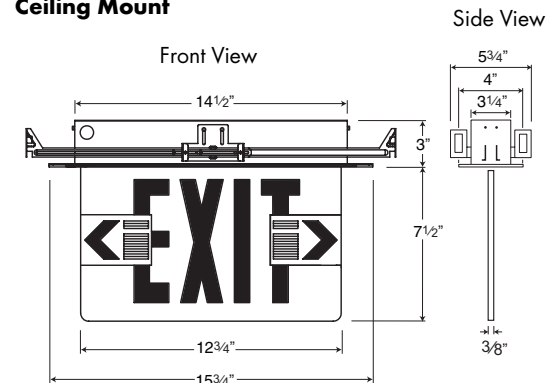

- Vertically adjustable to accommodate varying ceiling thickness.
