
Product Brief

Juno Lighting Group Introduces AccuLite Alari+ LED Parking, Roadway & Area Lighting

Des Plaines, Ill., May 17, 2011 — Juno Lighting Group®, a subsidiary of Schneider Electric, and a leader in innovative commercial and residential lighting solutions, today introduced enhanced AccuLite Alari+™ LED Parking, Roadway & Area lighting with new LED light engines. An architectural, energy-efficient lighting solution aimed at the commercial market, the LED Alari+ luminaires feature field rotatable optics, high transmission glass, and tool-less access for wiring and maintenance, providing customers with a low-maintenance LED option for area lighting applications.

The AccuLite Alari+ LED is specifically designed for high profile area lighting applications where luminaire style, energy efficiency, and low maintenance and installation costs are desired. The luminaires exceed 70 lumens per watt, and have a 50,000 hour LED life. A machined aluminum heat sink that creates a strong bond between the LED arrays and the aluminum housing reduces LED operating temperature, and precision engineered acrylic TIR LED optics ensure superb light control, high light levels, and superior uniformity. Constructed of die cast aluminum housing and stainless steel external hardware, these durable luminaires can be pole mounted with a fast and simple two bolt keyhole arrangement.

AccuLite Alari+ LED lighting also features:

- Type II, Type III and Type V distributions, all full cut-off and dark-sky friendly
- Independently tested per IES LM79
- Drivers with universal voltage input of 120-277VAC or 347-480VAC and internal surge protection of 2.5KV
- Optional field programmable driver with DALI protocol capability
- Available accessories for round pole, post top, mast arm and wall mounting
- Optional high transmission (97 percent) glass lens to increase luminaire efficiency
- Optional dimming features
- Baked polyester powder coat finish

The Alari+ LED Area luminaires are currently available through Juno Lighting Group channel partners. For more information visit www.junolightinggroup.com.

[About Schneider Electric](#)

Schneider Electric, a global specialist in energy management, is a leader in offering high-quality, innovative commercial and residential lighting solutions and advanced system controls. Schneider Electric provides lighting fixtures offered in the product ranges of Juno®, Indy™, AccuLite™, Aculux®, NaviLite® and DanaLite. Schneider
