## Product Brief

### Juno Lighting Group Enhances LED Mini-Cylinder Offerings with New Display & Picture Lights

**Des Plaines, Ill., May 17, 2011** — Juno Lighting Group®, a subsidiary of Schneider Electric, and a leader in innovative commercial and residential lighting solutions, today introduced the ultra versatile, compact and energy efficient Juno LED Mini-Cylinder Display & Picture Lights for horizontal and vertical mounting. Modeled after the widely acclaimed Juno LED Mini-Cylinder luminaries, the Display & Picture Lights offer a variety of mounting options to meet a range of residential and commercial applications including a convenient and innovative Mounting Clamp that features an integral transformer, electrical cord and plug. The super-efficient LEDs consume minimal electrical energy, approximating the light output and distribution of a 20-watt MR11 halogen, but requiring just one-third of the energy at 6.6 watts and lasting up to 20 times longer. Environmentally friendly, the RoHS compliant display and picture lights have no UVs or projected heat making them ideal in fade or heat sensitive applications.

The Display & Picture Lights provide uniform spot, narrow flood and flood beam patterns and have outstanding reliability, performance and color quality. Engineered for versatility, the ultra-compact fixtures are available in two arm styles that feature Juno's unique "Quick Jack" attachment system to quickly and conveniently install them in any location. The fixtures are compatible with Juno LED Quick Jack Monopoints and can be adapted to Juno Trac-Master® Trac-Lites, MonoLine®, Trac 12™ and Flex 12™ systems creating endless lighting possibilities.

Additional features of the Juno LED Mini-Cylinder Display & Picture Lights include:

- Service life of more than 50,000 hours
- Can be vertically aimed from 0 to 60 degrees
- Availability of 2700K, 3000K and 4100K color temperatures
- Offered in white, black or satin nickel finishes

The Juno LED Mini-Cylinder Display & Picture Lights are currently available through Juno Lighting Group channel partners. For more information visit [www.junolightinggroup.com](http://www.junolightinggroup.com)

#### About Schneider Electric

Schneider Electric, a global specialist in energy management, is a leader in offering high-quality, innovative commercial and residential lighting solutions and advanced system controls. Schneider Electric provides lighting fixtures offered in the product ranges of Juno®, Indy™, AccuLite™, Aculux®, NaviLite® and DanaLite. Schneider Electric lighting and control solutions including Powerlink™, C-Bus™ and Cassia™, provide one of the most comprehensive energy-saving offers in the industry, combining automated and web-enabled control with occupancy-based solutions and dimming capabilities.
