FOR IMMEDIATE RELEASE

JUNO LIGHTING GROUP® LAUNCHES NEW WEB SITE
Enhanced Online Catalog, Search and Navigation Improves Lighting Specification

DES PLAINES, Ill. (April 30, 2007) — Juno Lighting Group®, a leading North American lighting manufacturer, introduces a new Web site that combines product information for its nine leading brands in one database to quickly search for and select lighting products for commercial, industrial and residential applications.

The Web site, www.junolightinggroup.com, now features more than 70,000 products, new ways to search for the best lighting solutions, and easier navigation.

The new online catalog represents products from the leading Juno Lighting Group brands: Juno®, Indy™, Alfa, AccuLite™, Elate™, ModuLight®, Aculux™, NaviLite™ and DanaLite. Each product is detailed with spec sheet, instruction sheet, IES files, product guide page, image, line art and finish color swatches. The product information comprises more than one million records and hundreds of dynamic pages.

“Juno Lighting Group’s new Web site simplifies and improves the lighting specification process,” says Alison Zepp, vice president, marketing. “Detailed product information from our family of nine brands lets you pick just the right products for the right projects.”

The new Web site also offers three ways to search for products easily. The first way is Quick Search using a catalog number or trade name. This is available as a search box in the upper right corner of each page.

The second way to search is by using the Product Index at the left side of each brand or product page. The Product Index expands to show scope or line and is the best way to browse a brand offering.

New Web Site
2-2-2*

The third way to search is by using the Product Selector for a chosen brand, which allows users to find products by selecting specifications. Product Selector can search using up to six variables such as light source, lamp wattage, number of lamps and aperture size.

The new Web site is organized for easy navigation to product, company and industry information from the home page and other pages. Pointers to the nine product category brands are accessible from the home page and all product information pages. The home page provides easy access to sections with the company profile, careers, pressroom, new product information, application ideas, energy resources, industry links and contact lists of distributors and agents.

All information on the new www.junolightinggroup.com is available to the public. The Web site also contains a portal to a secure Web site for Juno Lighting Group customers and agents to view sales orders and other proprietary information.

Juno Lighting Group®

Founded in 1976, Juno Lighting Inc. is a leader in offering high-quality and innovative commercial and residential lighting solutions. Under the Juno Lighting Group umbrella, the company comprises nine product brands: Juno®, Indy™, Alfa, AccuLite™, Elate™, ModuLight®, Aculux™, NaviLite® and DanaLite.
